- **Other:** WordPress, REST APIs, Prompt Engineering, Python, Java

EDUCATION

Patuakhali Govt. Collect - Bachelor's Degree in Science

COURSES/CERTIFICATE

- Programming Hero - complete web development Course Batch-8
- Programming Hero - Next Level Web Development Course Batch-3

EXPERIENCE

Junior Software Engineer

ITLOGIKO | August 2024 – May 2025

- Executed full-stack development with React.js (frontend) and Laravel (backend), delivering robust, user-focused applications.
- Developed a Real Estate Management System, achieving 30% faster data loading, and spearheaded the Bioxin Brands project, boosting performance by 25%.
- Containerized an educational platform using Docker and collaborated in Agile teams to deliver scalable, high-performance solutions.

Software Engineer

SOFTWORLDIT LLC | July 2025 – Present

- Engineered a Laravel-based Patient Management System to streamline electronic health records and appointment scheduling.
- Developed a real-time chat application using Socket.io, Next.js, and Express.js to facilitate instant communication.
- Built a custom AI-powered SEO plugin for WordPress to automate meta descriptions and keyword optimization.

PROJECTS

Real Estate Platform (Full stack)

Features :

Links : [Live Links](#) | [Front-end github](#) | [Back-end github](#)

- Built role-based dashboards for users (profiles, wishlists), agents (offer/listing tools), and admins (property verification).
- Implemented secure offer system with price validation and streamlined agent workflows for property management.
- Optimized visibility controls, ensuring only admin-approved properties appeared in listings with real-time updates.

Technologies: React JS, Tailwind CSS, Material UI, Firebase, Stripe JS, JWT, Node.js, Express.js, MongoDB

Bio-Xin E-commerce Website (Laravel Backend)

Links : [Live Links](#)

Features:

- Developed shopping cart & order processing system in Laravel, handling product selection, pricing rules, and checkout flows
- Built secure payment integration APIs and order status tracking for seamless e-commerce transactions
- Optimized product searching performance with database query improvements, reducing loading times by 30%

Technologies: Laravel, MySql

LANGUAGES : Bangla (Native), English (Comfortable), Hindi (Comfortable)
